Trial In Russia Causes Widespread Interest; One Russian Acquitted By Court

London, April 19.—Great Britain answered the conviction of British engineers in Moscow by declaring today an embargo against Soviet goods which will shut out approximately 80 per cent of Russia's imports into the United Kingdom.

On the basis of current trade figures, the embargo, which becomes effective April 26, will bar imports aggregating 9,600,000 pounds (currently $33,600,000) annually.

Moscow, April 19 (Wednesday).—Two of the six British electrical engineers tried on charges of espionage, bribery and sabotage, early Wednesday were given prison sentences, while three were ordered deported and the other was acquitted.

Ten of their Russian codefendants were sentenced to terms up to ten years. One was acquitted.

The three Judges comprising the court anounced the verdict after nine hours and fifteen minutes of deliberation.

W. H. Mac Donald, the only one of the British employes of the Metropolitan-Vickers electrical firm to plead guilty, received a two-year prison sentence.

L. C. Thornton, the company's chief construction engineer in Russia, who was described as a military spy by Prosecutor Andrey Vishinsky, was sentenced to a three-year term.

Allan Monkhouse, the Metropolitan-Vickers director in Russia; John Cushny, an engineer, and Charles Nordwall were ordered deported within three days. They will not be allowed to return to Soviet Russia within five years.

A. W. Gregory, charges against whom were withdrawn by the prosecutor, was acquitted.

Y. I. Ziebert who, the prosecutor said, had engaged in no serious sabotaging activity, was the only Russian freed of the charges.

Woman is Sentenced.

The only woman defendant, Anna Kutuzova, secretary of Monkhouse, was sentenced to one and a half years imprisonment.

The verdict carried no death sentences, the severest punishment being the ten-year terms meted out to Vassili Gusev, A. T. Lobanov and L. A. Sukoruchkin, for all of whom the prosecutor asked the highest penalty.

The Judges came in with the verdict at 12:55 a. m.

YOUR HOME TOWN

SEEN HERE AND THERE.

"Your Home Town" has a big blister on his hand, the result of some strenuous exercise with the hoe in the back yard yesterday afternoon . . . Aren't the weeds growing fast these days in our yards and gardens? . . . County Treasurer Byron England speeds by in his car; believe us, he doesn't hesitate when he takes hold of that steering wheel; he's a good driver . . . R. Frank Scott, residing corner North Kentucky and Lamar streets, is a firm believer in taking long walks every day . . . Eld. R. C. Horn, veteran McKinney Christian minister, is another who enjoys taking long strolls . . . Frank Gurney, one of the efficient members of the mechanical department of these papers, is going in for rabbit raising on a big scale; he tells us he already has one rabbit to begin with . . . Van Woods tells us he and Mrs. Woods are enjoying a lot of fresh vegetables out of their garden . . . We always enjoy a conversation with Editor Clint Thompson of the McKinney Examiner . . . Ira Anderson, Universal Car company manager, down town, with coat off; that's another sign spring is here.

TO THE WORLD'S FAIR.

An excellent opportunity is afforded some industrious person to secure a free trip to the World's fair in Chicago, according to announcement of Manager Roy L. Brockman of the Ritz theater, who is beginning a "Greater Movie Club" campaign. The first prize will be a trip to the World's fair in Chicago, with many other worthwhile prizes. Keep up with the contest through the columns of these papers. All we know is that someone is going to be lucky and it looks like the contestants are going to work hard for that and other awards. All of which reminds us that McKinney now boasts three modern and up-to-date theaters, where you are assured of seeing the latest film releases.

NITCHOLAS WINS, 5 TO 2.

It was encouraging to hometown fans to read yesterday of the first game Otho (Fatty) Nitcholas hurled in the Texas league this season, pitching Oklahoma City to a 5 to 2 victory over Tulsa Monday. Fatty has the stuff in him that makes baseball players and we're counting on him to win a lot of games while he plays in an Indian uniform this year.

A TRIBUTE.

A nice tribute to Nitcholas was run Tuesday in the Times Herald, Dallas, as follows:

"Otho Nitcholas, recently unconditionally released by Fort Worth as not having enough stuff to win in the Texas league, appeared in Oklahoma City's lineup Monday and hurled the Indians to a 5 to 2 victory over the Tulsa Oilers.

"Nitcholas held the Oilers to five hits. Besides pitching the best ball that will win in most anywhere, he connected for two hits and in the scoring.

"The Indians hopped on Selby, Irvin and Willis for 12 hits. The victory gave Oklahoma City the odd game of the series."

A SPLENDID WRITER.

While we write this column, there comes a letter to our desk from our friend, Miss Murray Brownlee, who is now one of the secretaries in the House of Representatives in Austin, Texas. Miss Brownlee, an unusually gifted and talented young lady, is a daughter of Mr. and Mrs. R. M. Brownlee of this city. In her letter, she encloses a series of short articles which are well written and which should prove of great interest to readers of The Daily Courier-Gazette and The Weekly Democrat-Gazette. They concern things about which we are all interested and about things all of us should know something about. They are in five parts, under the following titles: "Sam Bass's Grave," "Statutes in and Around the State Capitol," "The Colorado River," "Our State Cemetery" and "Archives of Our State Library." The first story will soon appear in The Daily Courier-Gazette. Read it, then keep up with the other series as they are run from time to time in these papers. "Your Home Town," realizing the ability of this McKinney young lady to write, and also considering the material about which she writes, feels sure the entire series will prove greatly interesting to you.

Mr. and Mrs. J. A. Wright of Dallas attended the funeral of the latter's mother, Mrs. Billy Bomar, at McKinney Tuesday afternoon.

Mrs. F. M. Watson and son, F. M., Jr., of Frisco, visited Mrs. Watson's brother, Henry Williams, a patient in the Methodist hospital at Dallas. Williams was struck by a truck and dragged for a block and very seriously

her life. She and her heartbroken old husband had lived together as husband and wife for sixty years on the twenty-fourth of last October.

Mother Eight Children.

They were the parents of eight children, six of whom survive as follows: Ed Bomar, a business man of Three Rivers, in South Texas; T. Al Bomar, a McKinney business man; Lou Bomar, a Dallas business man; Mrs. J. A. Wright of Dallas; Mrs. Vinson Jay, route 3, McKinney; and Miss Josie, still at home, who has so devotedly and lovingly cared for her parents through the years. Two sons preceded their mother in death—Ernest Bomar, who died August 5, 1928, and Ben Bomar, who died at Clovis, N. M., April 13, 1929. Mrs. Bomar is also survived by twenty-seven grandchildren and four great grandchildren and also by one sister, Mrs. George Bomar, of the Bomar's Chapel community, about five miles northeast of McKinney. She was a member of the East McKinney Christian church.

The deceased was a home loving woman who devoted her life to making her home happy and caring for her loved ones and being neighborly, kind and helpful to those who lived in her vicinity. Her passing is mourned by a large host of relatives, friends and neighbors, in and around McKinney.

BART POPPLEWELL

(Continued from Page One.)

such occasions and on fishing and hunting trips for his white friend, Mr Popplewell. Many of the good women of the community brought in cake and other good things to eat and thus helped make the occasion a bigger success.

Bart Popplewell.

This editor wrote the following sketch of Mr. Popplewell which appeared in our papers of April 23, 1931, and which we herewith reproduce:

Few men have spread more sunshine in the world during sixty years of life than has Bart Popplewell, R. F. D. Carrier No. 1, Allen, Texas. It is difficult for a pessimist to exist in Bart's genial presence. His witty remarks and cheery laughter are irresistably contagious. Indeed, his friends and acquaintances in number are co-equal. He does not know how to harbor ill will in his heart and would enjoy returning good for evil if some one were to do him an evil. He seeks to strew pleasure along his pathway. His efforts are not forced, but spontaneously eminate from an inward born good nature reflected from eye, smiling countenance and enjoyable laughter. A character of this type is always welcome in any circle and when he quits the walks of men, he leaves a pleasant memory that might well be envied by any one.

A Kentuckian.

He was born in Russell county, Kentucky, in 1879, therefore recently attaining to his 61st birthday. His parents, William and Mary (Wolford) Popplewell moved to Andrew county, Missouri, in 1872, where he grew to young manhood. His mother was a sister of the late Dr. W. F. Wolford, veteran physician of Allen of revered memory who was the father of Dr. Fitzhugh Wolford and of Mrs. J. P. Harding, both of McKinney. His mother was also a cousin of the late H. L. (Laus) Wolford of McKinney, father of the Wolford brothers here—Judge A. M. Wolford, City Secretary O. Frank Wolford, Prof. H. T. Wolford, high school principal, and Dr. Hugh Wolford, dentist.

His pockets only $3.10 in cash. But he was rich in youthful strength, industry and ambition. He spent $3 of his money for a slicker and the 10 cents for bachelor buttons, and went to work at once, feeding cattle for R. B. (Uncle Bent) Whisenant who is still living at an advanced old age at Allen.

Married Twenty-Five Years.

Bart was married November 28, 1906, to Miss Mamie Heaslett, daughter of the late John R. Heaslett. Her mother is still living and resides on South Chestnut street here in McKinney. They were married at the Heaslett home which was then located in the White's Grove community. Their marriage was solemnized by the late Rev. J. D. Hudgins, a cousin of Mrs. Popplewell. Mr. and Mrs. Popplewell have one child, a son, Bart Popplewell Jr., who is a senior this year in the Allen high school.

Bart is a member of the Allen Baptist church, which "is not at all proud of me," so he declares, but says that "I am mighty proud of the honor of belonging to it." He is a member of Allen lodge No. 249 I. O. O. F.; also of Cottonwood Camp No. 447 Woodmen of the World and Harris Council No. 1156 Praetorians of Allen. He has passed through the chairs of these lodges and has also served as district deputy of the Odd Fellows.

Nearly Thirty Years' Service.

Bart began his career as a rural letter carrier, December 2, 1901, as carrier on Route 1, Allen. He will therefore, if he lives, round out a thirty-year continuous period of service on December 2 this year. He started delivering Uncle Sam's mail to the patrons on his route with a horse and buggy in good weather, and horseback in muddy times. In 1912 he began using a motorcycle and continued its use for two years, then went back to the horse and buggy which he continued to use until July 9, 1930, when he finally put aside this almost obsolete method of travel for a Ford auto.

His Horse's Travel Record.

He drove one horse continuously for ten years and when he retired, the animal, its travel record totaled little more than 50,000 miles. He disposed of the horse to John E. Maynor, one of his patrons, who still uses him as a saddle animal. However, Mr. Popplewell has another horse that he still uses when the roads are too muddy for auto travel.

Has Short Route.

When his route was first laid out and started, it was 24.37 miles in length, but during the Wilson administration, Postmaster General Albert Burleson cut off about seven or eight miles, making it the shortest in the service. He starts from Allen postoffice at 7:20 in the morning and by 10 o'clock, when he uses his auto is back again in the Allen postoffice. His salary is only $119 per month, exclusive of the $44.70 held out by the government for the retirement pension fund each year. Bart expects to retire when he reaches the age limit of 63 at which time he will be entitled to a $60 pension per month for the remainder of life. Bart states that in all of his nearly thirty years experience as a carrier, he has been "Mistered" probably not more than a half dozen times and that has been since he started to deliver in an auto. However, he likes plain old "Bart" best and does not thank any one for calling him "Mr."

Under Five Postmasters.

Bart has served under the following Allen postmasters: W. W. Chapman, Miss Mary Chapman, W. T. Pool, W. L. Brown and the present efficient incumbent, D. G. Melton. There are about 300 people served by his route which extends northwest of Allen out as far as the Milt Turner place and then around by White's Grove and the Wetsel schoolhouse community back to Allen. It is a choice farming section of our state.

Only One Left.

He states that only one of his original patrons of thirty years ago is still being served by him on his route. That one is H. Z. (Hulett) Jones, a brother of Ex-Mayor M. T. Jones of McKinney.

Bart states that upon reflection sometimes, he realizes that time brings about rapid changes in the personnel of inhabitants of rural districts as well as in towns or cities. He avers that his patrons are the most sociable, kind-hearted, courteous people to be found in the world and he had rather serve them than any other people that his Uncle Samuel could assign him to. He is a friend to every man, woman, child and baby on his entire route and takes a special pride in rendering them every possible service in the delivery of their daily mail and parcels and in doing any other little favor that is within his power and legal right to render. He is even known to the farmyard dogs along his route that bark and wag their tails in friendship for him as he makes his daily rounds distributing the U. S. mail. Even the old roosters often fly up on the fence posts to flop their wings and crow their welcome, while the hens and other barnyard fowls cackle and sing in apparent glee at his appearance, (and disappearance too) down the road. Bart says this is a great old world anyhow, in which to live and he only wishes that it were possible for him to hold his job for another thirty years to serve the best people and the choicest, prettiest farming area in all our magnificent big agricultural county.

Herschal Kerby has been sojourning at Forest Grove the past few days visiting at the

FARM COUPLE SELL 100 POUNDS BUTTER WEEKLY

One of the best patrons of farm producers in the way of a business firm is the C. & T. grocery store of McKinney, a firm composed of Roy Caldwell and J. J. Thompson. They have a modern, pretty brick grocery store, well stocked and displayed on South Church street. They have been liberal advertisers in this paper ever since the firm was established twelve years ago.

As an example of their belief in the farmers of our county and helping to support them is their standing contract of several years with I. H. Smithson and wife, a worthy farm couple living four miles northwest of McKinney on R. F. D. No. 4 to buy from them seventy-five pounds of butter every week. This worthy farm couple have a 205-acre farm, of which 100 acres is in cultivation and 105 acres in pasture.

They have about thirty-five head of choice Jersey cattle, some of them being purebred and have an average of about 25 good cows and milk all the time. They have a separator and regularly sell from 100 to 125 pounds of butter in McKinney every week. The C. & T. grocery gets most of it and have built up a good trade among their retail customers on the Smithson butter. Mrs. Smithson gives her personal attention to butter making and has become quite an expert. She molds it into pound cartons and prepares it in the most approved sanitary manner for market.

They feed their skim milk to chickens, calves and hogs. They have 200 hens and 450 little chicks at the present time. They also have sixty head of sheep on the farm and plenty of hogs on the place.

She has a well planned garden every year and is also an expert with a home steam pressure canner. She makes a rule to can much of her surplus veegtables, fruit and berries and also ample supplies of beef and pork and stores them convenient to her kitchen to be drawn on for family table supplies at any time during the year.

CLOTHING COSTS FARM WOMEN ONLY $25 EACH

Last year 23,658 Texas farm women and girls dressed well on less than $25 each, making for themselves and members of their families clothing valued at $341,233 at a cost of $142,104, reports Mrs. Dora R. Barnes, clothing specialist of Texas A. & M. extension service. Average net saving on clothing made was $8.60 per person.

"It was not just a matter of making their own clothes, although they made 250,440 garments, but of making them artistically, fittingly and economically," Mrs. Barnes said. About one-fourth of these women and girls made foundation patterns by which they could fit themselves perfectly and with ease. Clothing accounts were kept by 3,078 and clothing budgets were made by almost all demonstrators and co-operators.

Emphasis was laid on having a well-equipped and well-arranged clothes closet, in order to make clothes last longer and look well. There were 1,392 closets built new and 2,686 completely equipped with hangers, shelves and pockets.

Miss Helen Dunlap is county agent in Collin county. She has under her leadership 40 clubs of farm women and 4-H club girls.

Mrs. C. H. Russell and two daughters, Misses Etta and Rose, of this city, visited her brother-in-law, E. D. Russell, and wife, at Farmersville Sunday.

IMPORTANCE BIRTH RECORDS TO PEOPLE

Texans are now being asked, by the federal bureau of the census, if they can prove that they have been born. For absolute proof a record of birth should be on file with the bureau of vital statistics, Texas state department of health. The registration area is that part of the United States where, according to the government test, at least 90 per cent of all births and deaths are recorded with the proper officials. Texas is the only state that is not in this area and the present check by the government is for the purpose of finding out whether or not Texas should be admitted.

To secure this recognition and be placed on a par with other states it will be necessary for each person to see that any death or birth occurring in their family during the past year has been filed with the local registrar and that he has sent the report on to the state office. This check is now in progress and it is necessary that the records be sent in at once.

The proper registration of births and deaths is of the greatest importance not only to the individual but also to the public at large. A birth certificate will prove right to inheritance, citizenship, legitimacy, school age, legal age for marriage, right to vote, right to hold public office, age for military service, nationality in foreign countries and qualification for jury service. They are also used in securing passports and determining the birth rate in states, counties and cities.

No civilized community should allow a human being to die and be buried without an official record being made of the fact. Such records are indispensable in determining the cause of death, relative death rates, ratio of deaths to births, duration of life, rates of insurance and relative healthfulness of different states and localities. They are necessary in proving death for probating wills, settling estate, establishing claims for insurance and pensions and proving ancestry and heredity.

Justice of the Peace Erwin Craus, in commenting on the above, said that he is endeavoring to secure a record of all births and deaths, not only for this year, but for 1932. He urges physicians, undertakers and others to report to him on all births and deaths, both white and colored, for the years of 1932 and 1933.

TEXAS ONION CROP 34 PER CENT SMALLER

About 34 per cent smaller production of onions in South Texas than a year ago, 23 per cent smaller snap bean production and 8 per cent smaller acreage of cucumbers in Texas is reported by G. D. Clark, of Austin, Federal-State truck crop estimator. Irish potato production in the Lower Rio Grande Valley is 42 per cent larger than the light 1932 crop.

Weather was generally favorable during March, said Mr. Clark, and April 1 condition of truck crops averaged considerably above that a month previous. Condition on April 1 compared with a year ago was; snap beans 75 per cent of normal against 71 per cent a year ago; carrots 65 against 84 a year ago; green corn 76 against 68; cucumbers 78 against 60; South Texas onions 62 against 83; garlic 72 per cent of normal; Valley potatoes 70 against 45 a year ago; other potatoes 78 against 68; strawberries 62 against 68; Valley tomatoes 73 against 55; and watermelons 78 per cent of normal.

UNITED STATES LEAVES GOLD STANDARD IN PROGRAM OF CONTROLLED INFLATION

PRESIDENT'S WITHDRAWAL OF SUPPORT FOR AMERICAN DOLLAR IN EUROPE SEEN AS BOLD MOVE.

WALL STREET ENTHUSIASTIC OVER ADMINISTRATION'S ACTION TAKEN TO CHECK CONTINUED DEFLATION.

Washington, April 20.—In a day of historic financial action, President Roosevelt moved boldly forward Wednesday night for controlled inflation on an international scale.

He swung the United States off the gold standard in world trade as an opening shot and at night sanctioned legislation giving him broad authority to carry through his program to lift American prices, stabilize the world exchanges on a revised gold basis and expand the use of currency.

The swiftly executed maneuvers by the confident president brought a turbulent reaction throughout the world. American stock and commodity prices shot upward. The dollar fell off in the world exchanges. Wall street quotations on foreign currency rose spectacularly.

Quietly pointing for his next plays in the complicated field of international finance, Mr. Roosevelt called in advisers Wednesday night to outline procedure.

◆ ◆ ◆

Would Give Authority.

From Capitol Hill came a bill by Senator Thomas (Dem.), Oklahoma, extending to the president authority to issue new currency, to modify the gold ratios and content of the dollar and to establish a dollar stabilization board.

It was understood Mr. Roosevelt gave his sanction to the measure, although further details are being worked out.

To speed action, the proposal probably will be submitted as an amendment Thursday to the pending farm commodity bill.

New York, April 20.—Wall street, citadel of sound money, Wednesday widely welcomed the program of controlled inflation launched in Washington.

While the steps taken by the administration were variously interpreted and met with varying degrees of approval, many banking leaders asserted the vicious spiral of deflation must be checked.

A statement issued by J. P. Morgan, saying "it had become evident that the effort to maintain the exchange value of the dollar at a premium as against depreciated foreign currencies was having a deflationary effect upon already severely deflated American prices and employment" produced a profound impression in banking quarters generally.

Furthermore, some bankers said the Washington steps evidently constituted a counter-attack against dangerously radical inflationary movements. It was explained that the United States in its present program could act to control its currency and its price level, as Great Britain has done in the last year and a half, and thus avoid anything bordering on Germany's post war experience with fiat money.

◆ ◆ ◆

Off Gold Already.

Some banking authorities said the United States had been technically off the international gold standard since the government took control of gold movements during the banking holiday in March, and that frank abandonment of the gold standard for the time being, while permitting the dollar to find its own level in relation to other currencies, was a constructive step.

W. P. Aldridge and Silas Harrington were re-elected as members of the Plano school board at a recent trustee election in that city. A total of ninety-seven votes were cast. Joe Rice of Plano and C. M. Fagg of Blue Ridge led in the county school trustee elections in that city.

This editor enoyed meeting up with Prof. J. W. Akins, principal of the Wylie school who was here Wednesday night to attend the mass meeting in the interest of Collin county schools held at the courthouse. Approximately 300 attended the meeting.

J. F. Bone, proprietor of the Bone Shoe store, located on the north side of the square, has recently made extensive improvements at his place of business, repainting the front and otherwise making it more attractive, modern and up-to-date. McKinney citizens are congratulating Mr. Bone on further improving his fine place of business and doing his part in making our business district more attractive.

REVIEW OUR RECORD 1908 -- 1933

It is a source of much pleasure for us to look back over our record and mention briefly the progress shown during our twenty five year career. We climax with stronger faith in the future of McKinney which is shown through our sacrifices and efforts to give our town and county the fullest benefit of all the success we have acquired. We have been favored with a good share of patronage which provided us with a conservative living. In appreciation and return for all favors shown us we have spent out money freely for McKinney and Collin county, in providing and operating a substantial and necessary enterprise. Keeping in mind at all times to maintain a funeral establishment of which all McKinney and Collin County can feel proud. And at the same time render an outstanding service; as leaders in our field; at reasonable prices. All of which our records show, we have successfully accomplished. On the basis of the above facts, if the public feel us worthy of even more liberal patronage, we assure you that our future efforts will be just as progressive as in the past. And if you conscientiously appreciate a distinguished funeral service, you will certainly give our firm your first consideration, regardless of all past experience.

In year 1908 we were funeral directors at Granbury, Texas.

In year 1921 we established the "Beautiful Funeral Arrangement" in Collin County.

In year 1926 we moved into our own modern funeral home which we built especially for this purpose and dedicated same to service for McKinney and Collin County.

In year 1933, we proudly boast of the most complete and best equipped funeral home in North Texas. Yet we can prove to your entire satisfaction that our prices are no more than you will pay other funeral directors.

We thank you for reading this statement, which is in celebration of the seventh anniversary of our modern funeral home, our seventeth year of service in McKinney, also our twenty fifth year as funeral directors.

Respectfully,

JAPANESE BOMBS DESTROY MISSION FLYING U. S. FLAG

REPORTED KILLING OF AMERICAN IN CHINESE AIR RAID DISCOUNTED

Peiping, China, April 20.—A terrific aerial bombardment by Japanese planes devastated United States mission property flying the American flag at the village at Miyun-Hsien, the Rev. Mark W. Brown, secretary of the North China confereuce of the Methodist Episcopal church, reported Wednesday.

Coincidentally with report of the raid, the Chinese military issued a communique declaring a United States missionary had been killed by Japanese bombs.

The United States legation said, however, that no American missionaries were registered at Miyun-Hsien.

◆ ◆ ◆

Many Buildings Destroyed.

Brown reported the Methodist Mission property was hit repeatedly. Numerous buildings, he said, were destroyed.

"I was working at the mission in Miyun-Hsien when twelve airplanes arrived," Brown said. "They dropped eighty bombs, devastating the city.

"One bomb knocked down a thirty-foot brick and stone wall surrounding the mission compound.

IDEAL WEATHER GREETS EASTER CELEBRANTS

Favored by ideal weather conditions, McKinneyites fittingly observed another Easter Sunday yesterday. Numerous homecoming and family reunions were observed in all parts of the city. Commencing Saturday, out-of-town relatives and former residents began arriving in the city, remaining over Sunday to enjoy Easter Sunday with relatives and friends.

The day was ideal for bringing out large groups of worshippers at local churches and every denomination reported an increased attendance in all departments. Many new members were received on the church rolls. The day marked the close of four pre-Easter revivals.

The agreeable weather, which came as a pleasant surprise to local townspeople, continued over Monday, the mercury going past the 75-degree mark during the day.

Mr. and Mrs. Bob Scofield and attractive little daughter, Frances Ann, of Dallas, spent the week-end with Mrs. Scofield's parents, Mr. and Mrs. G. W. Bryan, in this city.

DETAILS OF SISTER'S DEATH IN AUTO WRECK

Dr. J. H. Elliott returned from Terrell, Friday morning to look after some matters at home during the day. He stated that the remains of his sister, who was killed in an auto accident Wednesday morning, April 12, were expected to arrive in Terrell Sunday afternoon with burial taking place there Monday at her old home.

The doctor talked to his brother-in-law, Rudolph Wolfard, by long distance telephone from Bisbee, Ariz., who informed him about the plans.

Mr. Wolfard and wife, formerly Miss Mary Elliott of Terrell, lived in Los Angeles, Calif. His wife had the opportunity of coming in an auto with three or four friends as far as Dallas, expecting then to go on to Terrell to visit her mother, Mrs. J. E. Elliott and brother, J. P. Elliott, there, and then come on to McKinney to visit her brothers, L. L. Elliott and Dr. J. H. Elliott and wives, who live here. About 6:30 o'clock Wednesday morning, April 12, the auto in which the party was traveling ran off a bridge about thirty miles west of Bisbee, Ariz.

Mrs. Wolfard was instantly killed and the other occupants very seriously injured. The body was taken back to Bisbee to which city the heartbroken husband was summoned as soon as he could be apprised of the fatal accident.

The deceased, before her marriage, had often visited her brothers in McKinney and knew quite a number of friends here who were shocked at her tragic death.

The mother and brothers have the sympathy of a host of friends of the family living in this city in their terrible bereavement.

BOUGHT FARM ON DOLLAR DAY WAGES

John H. Nicholson, a fine old citizen and farmer, living on his farm near Heard's stop, on the interurban, two miles south of Melissa, was in the city Thursday. This editor enjoyed quite a little visit with him. His father and mother settled on their farm, just east of Melissa adjoining the Dr. D. T. Pardue farm, before the Civil war and reared their family. His mother was a Strother. Uncle John is now 72 years old, but quite active. He has two sisters living, Mrs. W. P. Abernathy and Mrs. Donna Due of the Donna community. When Mr. Nicholson was about grown, he ran the engine for Uncle John Oronduff's gin at Squeezepenny, about seven or eight miles northeast of McKinney. He was paid a dollar a day for running the engine and cutting the wood that was used as fuel. In this way and by other labor he saved enough money to buy a thirty-nine acre farm from Dick Allen's mother at about $8 per acre and paid for it. He has always led a sober, honorable, industrious life and bears the respect and esteem of every acquaintance. His wife was formerly Miss Alice Harpole, daughter of the late W. A. Harpole. They have five children. Their youngest son is living at home with them, and helping his father run the farm.

Mrs. W. H. Simms, who has been ill is better.

Claud Neely was stepping out Monday, a Chesterfieldian, as he always is. It was his 47th birthday. He was born and reared here and no man has more friends. These editors have always liked him and will continue to like him until we all pass on. Claud is the able, efficient and kindly manager of the McKinney Coca Cola Bottling works. No question but what he is the right man in a hard place to fill, for

The deceased was a native of Cairo, Ill., where she was born March 21, 1868, being a daughter of the late S. J. Purcell, her maiden name being Sinie Purcell. She was brought to Collin county by her parents, when she was a small child, and resided here since.

In 1885 she was united in marriage to J. B. Neal, in the New Hope community. To this union eleven children were born, all of whom survive as follows: J. W. Neal, banker, of Princeton; Mrs. T. D. M'KINNEY GIRL BRIDE YOUNG PLAINVIEW MAN

Miss Willard Bridges, fair young daughter of Mr. and Mrs. G. C. Bridges of this city, was married at 11:30 o'clock Saturday morning, April 15, in Dallas to Leon Lindsey of Plainview, Texas. The wedding took place at the Grace Methodist church in Dallas with its pastor, Rev. Guy F. Jones, formerly of this county, officiating. The bride was accompanied by Miss Lucille Tinsley of this city, chum and classmate of both the young bride and groom. The bride wore a frock of blue crepe trimmed in grey fur with white accessories. Miss Tinsley wore a blue dress with black and white accessories.

The bride was born, reared and received her schooling in McKinney, where her sweet disposition and charming personality have surrounded her with a multitude of acquaintances and good friends. Her father holds an important official position with the Texas Traction company. The groom was also born and reared near McKinney and attended school here, being a son of Mr. and Mrs. I. S. Lindsey, who moved to Plainview, West Texas, several years ago, where the young married couple will also make their home.

A host of McKinney friends of the young couple congratulate them on their marriage and happy consummation of their early youthful love romance.

Miss Frances Umphress Davis, daughter of Mr. and Mrs. J. Lyman Davis, of Sherman, and granddaughter of Hon. and Mrs. H. A. Finch Sr., and Judge and Mrs. H. L. Davis of this city, won first prize in the district declamation contest held in Paris Saturday.

She won first prize in the Grayson county declamation two weeks prior to the district meet. She was at that time presented with a loving cup for her school and a gold medal.

She received her instructions from her mother, Mrs. J. Lyman Davis, who is a graduate of the famous Currie School of Expression in Boston, Mass.

Miss Davis often appears on our local programs and is well known here, where she visits her grandparents. Since receiving her honors she has been the recipient of numerous congratulations.

M. H. S. TYPING TEAM WINS AT COMMERCE

The commercial department of McKinney High school under Prof. E. Y. Wolford, instructor, realized a long-time ambition Friday at the district meet, at Commerce, when the McKinney High typing team, composed of Misses Virginia Tinsley and Ethel Baxter won first place in the district tournament over strong entries from Paris, Greenville, Plano and several other schools in this district.

The local team, therefore, received a beautiful loving cup, the first ever given away in this district for their efforts.

Miss Virginia Tinsley also won third place in the tournament as an individual and will probably go to Austin with a student from Greenville and Paris High schools, who captured second and first place, respectively.

The McKinney high team, although it did not rank so high individually, had by far the best team speed when the two girls' speeds were averaged together.

Miss Tinsley received a beautiful bronz medal for placing third individually, while Miss Baxter also placed high individually.

Prof. E. Y. Wolford, typing instructor, and Misses Frieda Acuff and Louise Weeks, alternates, accompanied the team to Commerce.

This is the third year McKinney High has entered the district typing tournament. In 1931, McKinney placed third, and in 1932 they came out second.

Prof. Wolford and his team are to be congratulated on this victory over such strong teams, since they have worked hard this year, from the beginning of the school term, putting in extra practice and otherwise preparing for the district tourney, which they won so handily.

KNIGHTS TEMPLAR SUNRISE SERVICE DALLAS STADIUM

WILL J. RHEA AND W. C. DOWDY AND FAMILIES ATTEND

Will J. Rhea, Generalissimo of the Grand Commandery of Texas, of this city, and T. M. Bartley, of Waco, Grand Commander, both attended the annual sunrise Easter services of the Dallas and Tancred Commanderies of the Knights Templar at the Dallas Fair park stadium Sunday. Dr. Grover L. Diehl of the Central Congregational church, Dallas, preached the sermon to an audience of about 8,000 people. Music was provided by the Bel Canto quartet, the Cliff-Pentagon Masonic Male chorus and the A. Capella singers, all suitably attired. It was a very impressive, beautiful Easter service.

Mr. Rhea was accompanied to Dallas for the service by his wife and son, Will J., Jr., and by County Attorney W. C. Dowdy, wife and two children, Eugenia and W. C. Jr.

LARGE CROWDS ATTEND FIRST BAPTIST SUNDAY

The main auditorium and adjoining Sunday school rooms of the First Baptist church were filled for both morning and evening services at the First Baptist church Sunday, when special Easter messages were brought by the pastor, Dr. J. H. Cozad. A number of visitors from out-of-town were guests at these services.

Special Easter music was given by the church choir with several of the members taking solo and duet parts. The "Story of the Resurrection" was revealed in the music and scripture from which Dr. Cozad brought his sermon, his subject being "The Assurance of Immortality." The message was a forceful one and at its close, five new members were received into the church.

At the evening hour the pastor brought another fine sermon from the subject, "The Risen Life." The choir rendered music, in keeping with the occasion. At the close, baptismal services were held with special lighting effects, making the occasion most solemn and sacred.

Increased attendance in the Sunday school and B. T. S. were noted during the day.

Funeral services for Silas Taylor Jordan Jr., aged 4 years, 3 months and 11 days, son of Mr. and Mrs. Taylor Jordan Sr., of Chamberasville, were held Saturday afternoon at 3 o'clock at the family residence, with interment following in the Chamberasville cemetery, under the direction of the

M'KINNEY HI TRACK WINS THIRD IN MEET

The McKinney High Lions amassed 31 points to gain third place in the annual District 6 Texas Interscholastic track and field meet held at Commerce Saturday. Grand Saline was first with 38 points while Edgewood placed first to McKinney's third in the mile relay, the last event, to push the Lions back into third place. Edgewood had 34 points.

McKinney swept the high and low hurdles and the 100 dash to accumulate most of their points, while Edgewood shone in the 220-yard dash through the mile and Grand Saline swept through the weight events for their winning margin.

Scott Sets New Record.

Five new records were set. Alfred Malley Scott, son of Mr. and Mrs. A. M. Scott of this city, amazed the crowd with an almost unbelieveably fast 100-dash, which he finished in 9.9 seconds, two steps ahead of the veteran Stewart of Edgewood who had beaten Scott's time the day before. This was the feature race of the meet, and despite the fact that he had a very slight wind to this back, Scott will be given credit for the new record in District 6. Scott's start in this race, usually slow, was perfect, and he was a step in the lead at the halfway mark. He increased his lead another step in the last 50 to break the tape first. It is the opinion of coaches and officials of the district that this record of 9.9 will stand for many years. It was formerly held at 10.1 by Charlie Hearon and Joe Portwood of Greenville.

Stewart of Edgewood came back in the 220-yard dash to capture a first place and break his own record tearing it down to 22.8 seconds. Walden of McKinney was fourth in this event. Stewart set the old record at 23 flat last year.

◆ ◆ ◆

Walden Breaks Record.

Leslie Walden of McKinney broke the record in the 220-yard low hurdles, winning in 25.6 seconds. The old record was held by Ablowitch of Greenville, whose time on the lows in this district was 26.4. Ablowitch is the Greenville boy who set the state low hurdles record of 24 flat and who ran third man on the United States mile relay team in the Olympics. Jas. E. Wilson also of McKinney was a close second in this race.

A speedy quartet from Edgewood broke the old mile relay record of 3:45 held by Mineola. The new record is 3:42.

Grand Saline also set a new record of 166 feet, 6 inches in the javelin.

Speed Kimbriel, elongated McKinney high hurdler, lacked one tenth of a second of equaling Ablowitch's time of 16.4 on the high hurdles, running them in 16.5.

FORMER M'KINNEY WOMAN MOTHER FIVE CHILDREN

Mrs. Addie McCown Cunningham of Stillwater, Oklahoma, has been visiting her mother, Mrs. Bell McCown in McKinney for a few days. Mrs. Cunningham was born and reared and educated in McKinney. One of her most beloved teachers, Mrs. E. L. Burton, is still living here, and she never fails to visit her when she comes back to her old home here to see her mother. Mrs. Cunningham is the mother of four children, a daughter and three sons. Her daughter is the wife of Prof. Jesse Cardwell, principal of the Idabel, Oklahoma High school. One of her sons is the editor and publisher of the Payne County News in Oklahoma; another son is a linotype operator on the Daily Oklahoman, Oklahoma City, while her third son is a senior in the Oklahoma A. & M. College at Stillwater, who will receive his degree in the early part of June.

All-Stars Win Over W. O. W. Nine

The W. O. W. team and All-Star baseball teams of McKinney opened the baseball season here with a free-hitting game at the Cotton Mill park, the final score being 11-8 in favor of the All-Stars. The W.O. W. team, which is now in the Red River Valley loop, had not played together before and showed up well. The All-Stars jumped into a 4-0 lead in the first inning. However, a triple by Walter Apple in the sixth with two men aboard put the W. O. W. ahead 8-6. Walter Dowd relieved Alvin Stewart for the Stars on the mound at that juncture and the W. O. W. lads were never able to gain the lead again when the Stars ran in five runs in the seventh.

Outstanding for the winners were Hack Miller, catcher; Roy Yarbrough, first base, and Dowd on the mound, while Walter Apple, with two triples and a single; "Jelly" Patterson, with two triples, and Norman Scott, who hit a triple and fielded brilliantly, stood out for the W. O. W. lads. McFarland pitched a good game for the W. O. W. as did Smith who relieved him.

FOUND GUILTY PLANTING JOHNSON GRASS ON FARM

Hunter Farrell, Plano landowner, was fined the maximum penalty of $1,000 here late Saturday after a jury in Judge J. Frank Harrington's county court in this city had found him guilty of sowing Johnson grass on the farm of his former wife, Mrs. Mary Alice Farrell, west of Plano.

Farrell and his wife were granted a divorce in district court here in 1928.

The minimum penalty for such an offense is $25.

Hon. William Cramer of Dallas represented the defendant, while County Attorney W. C. Dowdy and his assistant, Leon O. Moses, assisted by Special Prosecutor, Judge W. L. Crawford Jr., of Dallas, represented the state.

Tom Rattan and wife, who live on their farm near Anna, are in McKinney attending the bedside of the latter's grandmother, Mrs. Laura Anderson, who is very seriously ill at her home on North College street.

ADDITIONS ARE RECEIVED FIRST METHODIST

Easter was appropriately observed at all services Sunday at the First Methodist church. Dr. C M. Simpson, pastor, had prepared two special sermons, fitting to the Easter occasion, for the day. His morning subject was "Easter: Through Darkness Into Day," while at the evening hour he spoke on "The Hills of God."

At the morning service a class of new members was received into the church, while one infant received for baptism. Miss Janet Miller, daughter of Dr. and Mrs. Bryce Miller, gave a beautiful vocal number.

A mixed quartet provided special music at the 7:30 hour, composed of Mesdames J. A. Dyer and Cliff Goggins and Messrs W. Hammond More and R. J. Walton. Mrs. H. A. Finch Jr. assisted at the evening hour, her subject being the "Madonna and Child."

Increased attendance was noted at all hours of the day, including the Sunday school and Epworth leagues.

Mr. and Mrs. John Phillip Barbee of Wichita Falls spent the week-end here with Mrs. Barbee's parents, Mr. and Mrs. Dick Bryan.

SHERMAN RECTOR HOLDS EPISCOPAL CHURCH SERVICE

The St. Peter's Episcopal church was filled to capacity Sunday morning when Rev. Richard S. Watson of Sherman conducted the service. Rev. Watson is rector of St Stephen's Episcopal church in Sherman.

The services were begun at 9:15 o'clock, lasting for about forty-five minutes, during which communion was held.

The Episcopal church here has no one to regularly occupy the pulpit, but on frequent occasions rectors from churches in nearby cities have come here to hold services, at which large crowds always attend.

A host of friends are congratulating "Grandpa" and "Grandma" McGarr on their first new honor of this kind. They are rather youthful looking grandparents. And, they are also very happy at the arrival of this sweet, little granddaughter.

NAZARENES ARE PLEASED WITH ATTENDANCE

Services at the Nazarene church, on South Wilcox street, Rev. J. W. Akin, pastor, were well attended Sunday with fine interest shown during the day. There were 105 present at the Sunday school service Sunday morning, while two members were added to the church at the morning hour. The evening service was also well attended, being closed out with a good old-fashioned handshaking.

Rev. Mr. Akin announces that there will be special services at his church on Sunday, April 23, at which time Dr. Morrison, Nazarene leader, of Kansas City, will be present. District Superintendent I. M. Ellis will also be present. Both will make addresses. Rev. Mr. Ellis is editor of the "Herald of Holiness," church paper.

Mr. Akins ays that there is unusually fine interest in his church at the present and they are expecting great things this year.

M'KINNEY YOUNG MAN'S RECORD AT JOHN TARLETON

A folder from the John Tarleton A. & M. college at Stephenville has been received by seniors in McKinney High school. This editor, while loking over one of these folders, immediately recognized our old friend, Van Mount Wood, son of Mr and Mrs. Van Wood of this city. Van Mount is the key man of the crack Company A or Videttes of the military corps of that school and is shown at the head of the company in this folder.

Van Mount is a fine looking young man and is one of the few first-year students in John Tarleton's history to meet the Company A qualifications. To be in this company, a student has to make excellent grades both in scholastic and military work, must be over five feet, ten inches in height and must be an all-around fine student. He has met every qualification in fine style and is making a fine record in the John Tarleton school. He was a member of the 1932 spring graduating class of McKinney High school.

Miss Ela Watson of this city spent the week-end with her friend Miss Opal Riley in the Wetsel community.

Halsell S. Davis, former district clerk, wife and fine little son, Halsell Jr., visited their friends, Mr. and Mrs. Eros Brown on the latter's farm just east of Allen Sunday. A very enjoyable Easter egg hunt was given by the parents for the children in Mr. Brown's pasture Sunday afternoon.

EDITORIAL EXPRESSION

Collin's onion acreage for this year is not nearly as large as last year's. But, here is hoping the growers may have a good yield and receive production cost plus a neat profit on their investment of cash outlay and hard labor.

Recently the Garland News completed its fortieth year of publication. Fine paper, doing a great service for its town and trade territory. William H. Bradfield is its editor and owner. We wish our esteemed contemporary many more years of vigor and worthwhile accomplishments.

Staff Sergeant Irvin V. Masters, United States Marine Corps of Big Springs, Texas, will be awarded decoration for bravery by the Nicarauguan government. He exhibited courage in an airplane attack on bandits in that country while serving as a pilot. Sergeant Masters was born at Pike in Northeast Collin and first enlisted in 1926.

A number of old settlers of our county have passed away in recent months. One of the latest was J. F. Ragsdale of McKinney, who lacked only a few months of ninety. Another one more recently was Mrs. J. E. Browning of Melissa, who died Tuesday in her eighty-second year and who had lived in the county and on the same farm practically all of that time for fifty-nine years.

Mrs. Elizabeth Custer, 91, widow of Gen. George A. Custer, hero of "Custer's Last Stand," recently died in New York City. The defeat or as it is referred to by most American editors as "massacre" of Custer and his little band of 207 men occurred at the Little Big Horn River in Montana nearly fifty-seven years ago. Chief Sitting Bull was the Indian leader in this ambush in which Custer and all of his men were cruelly slain by the savages.

Corn planting is later than ordinar this spring. Due to wet condition of the land and continued cloudy, showery weather. Many fields, especially in the lowlands and second bottoms have not been dry enough to allow the old stalks to be all cut yet. But, perhaps in the economy of nature we may be favored with a late corn growing season. No one can tell.

State Health Officer John W. Brown characterizes typhoid fever as a national disgrace and an unnecessary evil. It is a preventable disease. Yet, it is allowed to take a toll of more than 600 lives every year in Texas besides approximately 5,000 others are sick with it some time during the year. The average duration of the illness is about eight weeks, which means that the disease is responsible for the loss of 336,000 days in Texas each year. Dr. Brown says typhoid vaccine is a harmless solution. It is injected under the skin in the upper part of the arm in three doses—usually a week apart. It ordinarily protects against the disease from two to three years or longer.

California has dreadful earthquakes to endure every few years, so it seems. While Texas seems to be immune from temblors crashing buildings from their foundation, yet we do have almost every year visitations from cyclones that dip down to earth in their spiral fury to level all in their pathway. But these visitations are usually in very narrowly restricted areas and are escaped from in many instances by the use of storm cellars. We are not particularly fond of either, but if we had to make a choice we would prefer the hazard of the average Texas cyclone to the California earthquake. A good storm cellar is not a bad thing to have connected with every home, because it is not only a timely refuge in storm, but also offers a safe storage for surplus canned goods for the family table. Handy storm cellars have double utility.

When the government succeeds in cutting down all salaries of the workers to the pre-war level, lowering all allowances to ex-service men, and repealing of the 18th Amendment so as to tax the poor through the saloon, then Mr. Raskob, Mr. Morgan, Mr. Mellon and the huge corporations of the country who profited by the World War will be happy—and not until then. The singing over the radio Sunday, in which they were lauding the acts of President Roosevelt, the singers wound up with, "But the cut of the veterans was the unkindest cut of all." Verily, verily, President Roosevelt has a hard and rocky road ahead of him. We endorse the plan to cut off every grafting veteran. If he is not justly entitled to a pension, he ought to be cut off in the interest of economy. No doubt there has been a huge graft at work. But to make a wholesale slash regardless of the merits of the case is not only unjust, but certainly will prove politically unwise. There are a number of high-up officials in the American Legion who are working hand to hand with the huge income tax-payers of Wall street who are drawing pensions running into the thousands and who are well off, but whose allowances will never be cut. They are spokesmen for those big Wall street bankers of whom you have heard,—their work pleases them mightily. Yes "the unkindest cut of all" may yet take off the head of the democratic donkey. But we have high hopes that President Roosevelt will exhibit the real old Roosevelt ian spirit and smash into those big grafters who are so blind with greed that they do not see that they are pushing the government into anarchy.—McKinney Examiner.

MANY FOREST ARMY BENEFITS.

There is so much in the papers about the reforestation army, says, "State Press" in Dallas News, that many readers have wondered what the enlisting soldiers will be expected to do. The general idea that they will be sent into the forest to prune the trees is not altogether sound, so he goes on to say. Likewise, the supposition that the dollar-a-day men are to take side courses in botany and learn the ways of birds in nest-building is equaly infirm. The men for whom work is to be found in the Government woods will not be diletante woodsmen. They will perform useful service, although it may be a service not immediately needed or too long delayed. There are about 150,000,000 acres of Federal forest lands in the West and about 8,000,000 in the Eastern half of the United States. Thirty-eight States have such forests. The National Forest Service, a long-established organization, has made a survey of the properties under its direction, and formulated a program for the newly recruited armies. There is an annual appropriation for forest improvement and protection, and this appropriation is expected to be absorbed into the new assignment. Further and much heavier appropriations will have to be made from time to time, of course. These expenditures will be charged against the forest property account, and while that part of the bookkeeping will be proper and business-like, the offsetting asset will not be cashable in our day. The forests are property, certainly, but, so far, not dividend-paying.

The work to the done by the soldiers of peace will be in the way of building roads, opening trails and fire breaks, constructing telephone lines and lookout towers, the development of range waters, and construction of range fences, corrals, camping grounds for tourists, eradication of destructive tree enemies, insects particularly, and the sicknesses that prey upon native growths inaccessible to doctors. Every forest has its own problems, and trained foresters, already in Government employ, will be the captains and lieutenants of the newly formed ax companies. Presumably they will not march with flags or chop to the accompaniment of drum beats. In addition to their heavier duties, they will also dig up and destroy noxious growths. All of us will unite in the hope that they will utterly annihilate poison ivy, that bane so feared by amateurs who fain would wander in the woodlands.

It is expected also that the forest infantry will set out and tend berry bushes, the currant and the goose, the haw and the plum, so favored by the bears and the hermits who depend upon wild fruits for their livings. The cost will mount to a magnificent height, but we shall have cleaner, finer, more alluring national forests. And thousands of worthy men will have been given work and wages. The immediate profit will be in terms of human value, not in timber inventory.

"Peaceful be thy silent slumber,
Peaceful in thy grave so low;
Thou will not join our number,
Thou no more our sorrows know.
Yet again we hope to meet thee,
When the day f life is fled,
And in Heaven with joy to greet thee

Where no farewell tears are shed.
'Tis hard to break the tender cord
When love has found the heart,
'Tis hard to hard to speak the words;
We must forever part.

Dearest loved one we must lay thee
In the peaceful grave's embrace,
But the memory will be cherished.
'Till we see the Heavenly face.

How to get to
SLEEP

When you can't sleep, it's because your nerves won't let you. Don't waste time "counting sheep." Don't lose half your needed rest in reading. *Take* two tablets of Bayer Aspirin, drink a glass of water—and go to sleep.

This simple remedy is all that's needed to insure a night's rest. It's all you need to relieve a headache during the day—or to dispose of other pains. Get the genuine tablets of Bayer manufacture and you will get immediate relief.

Bayer Aspirin dissolves always immediately—gets to work without delay. This desirable speed is not dangerous; it does not depress the heart. Just be sure you get the genuine tablets stamped thus:

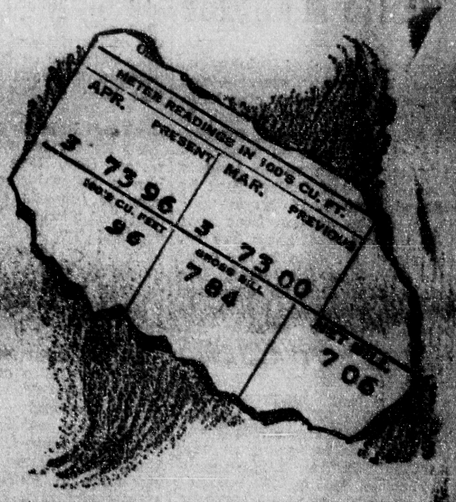
Here's an itemized gas bill...



This family's bill of $7.06 for a month's natural gas service lists 9,600 cubic feet, used from March 3 to April 3, which included considerable heating weather. If these purchases (for family of four) for cooking, house heating and water heating could be itemized, this is about the way they would look:

$1.20 .... to cook 72 meals (had guests five times, with extra good dinners).

.26 .... extra bakings (cakes, cookies and gingerbread).

.30 .... for bathroom heater for average of two hours per day.

1.25 .... hot water for 75 dish washings, for laundry, shampoos and incidentals.

3.53 .... for three room heaters (running living room heater too high on several occasions, keeping room at 76 degrees).

.30 .... hot water for 60 baths.

.02 .... hot water for 28 shaves.

.11 .... high flames (unnecessary) on range burners.

.09 .... small leak in dining room heater connection. (Gas man discovered that the wall cock was a cheap lightweight one, the kind that almost always does leak.)

...Do you know of any other spotless boat that works for such low wages as your natural gas?

YOUR HOME TOWN

IDEAL.

We have heard no one complain of the ideal weather conditions prevailing here Easter Sunday. It was ideal, a bright mid-April sun shining, in all its luster out of a cloudless sky, down on an appreciative populace.

GOOD DAY FOR OUR CHURCHES.

McKinney churches report one of the best days in history Sunday. For centuries Easter Sunday has always marked a revival in church interest and on that day folks are attracted to our churches who, perhaps, have not visited a house of God in a year or more. The occasion ranks as one of the two most important dates on the Christian calendar, the other being Christmas. The world rejoiced when it was made known that a Saviour of Mankind was born. But the world had reason to be forever and eternally grateful when news was spread that the Crucified Christ had arisen. Think, for a moment, what the Resurrection means to humanity. What would life mean without hope of life eternal? Think, for a moment, what awful and dire things would have occurred without a Risen Christ during the past twenty centuries. It is little wonder, then, that Easter causes so many people, who have hitherto paid little or no attention to Christianity, to think more seriously on worshipping God at the church of their choice. All of which reminds us again that we have cause to be thankful that we live in a city, boasting so many stately church structures and so many able, consecrated ministers of the gospel, to say nothing of hundreds of devout Christians. "Your Home Town" hopes that the increased church attendance in our houses of worship Sunday will not be just for a day, so to speak, but that this increased interest will continue throughout this and the years to come.

MANY VISITORS.

Never before have we seen more out-of-town people in our midst than were seen visiting home folks and friends here Sunday. From far and near, they came, to spend a day with relatives and old friends. Family reunions were the order of the day and many tables fairly groaned with a variety of good things to eat for every visitor. Every one seemed to be in a happy frame of mind, being doubly joyous, since the weather man smiled down on a people who were really and truly thankful for the bright day overhead.

PROMINENT PARVIN FARMER VISITS M'KINNEY

A representative of this paper had an interesting conversation one day recently with our long-time friend, J. H. Sutherland, R. F. D. No. 1, Celina, who, for several years, has lived on a part of the former Parvin ranch land, a few miles west of Celina, that he purchased from J. H. Merritt.

Mr. is of the opinion that our section around McKinney has received more rain than in the community in which he lives. He doesn't consider that his wheat or spring oats either are looking so promising as they might. His corn is up to a fairly good stand, and he is planning to plant cotton about April 20.

In his young manhood, Mr. Sutherland taught school several years at Graybill, Cross Roads and perhaps at another point or two in Northeast Collin. While teaching at Cross Roads, he boarded with the late Uncle Henry Tidwell, a highly-respected early settler, who was the father-in-law of Judge T. C. Andrews of McKinney. Mr. Sutherland taught school under the administration of Prof. W. W. Shepherd, county superintendent.

Before moving to the Parvin section, where he now lives, Mr. Sutherland lived in the old home place of Thornt Shirley, just east of Melissa. We were talking to him on April 13, which date was the twelfth anniversary of the Melissa cyclone, which disaster he very vividly recalled. He stated that he and his family took refuge in the storm cellar. However, their big two-story, farm home, which was exceptionally well built, withstood the fury of the twister, although considerable damage was done to outbuildings and fences on his premises.

Mr. Sutherland has eight children, four boys and four girls. Two of them are now teachers—Miss Ruth, who is teaching at Good Hope, near his home, and Mrs. Wallace Smith, who has been teaching near Wylie for the past several years. One of his daughters, Miss Essie, is a college student at Denton.

Mr. Sutherland is an intelligent, high-class citizen. The Daily Courier-Gazette has long appreciated the friendship of this good man and his fine family of children for their friendship and patronage.

SAM NEATHERY ENTERS HOUSTON LAW PRACTICE

HON. SAM NEATHERY.

Hon. Sam Neathery, former county attorney of Collin county, has retired from the office of city attorney of Houston and will enter the practice of law in that city. Mr. Neathery is a son of the late Dr. A. H. Neathery of Farmersville and a brother of Dan E. Neathery of McKinney, former county treasurer for four years and later county tax collector for a like period of time. Sam Neathery is a successful lawyer, who has a multitude of friends and relatives in this city and county, who will be interested in the following news item taken from one of the big Houston papers of last Sunday:

◆ ◆ ◆

New Law Firm.

Mayor Walter E. Monteith and City Attorney Sam Neathery will form a law partnership when they retire from office on April 15, according to an announcement made Saturday.

The new firm will be known as Monteith & Neathery. Louis Cutrer, who has served as assistant city attorney for the past four months, will be associated with them in the general practice of law. They will open offices in the Second National bank building.

Mrs. Grace Saage, the mayor's private secretary for the past three years, will go also with the firm in a secretarial capacity.

◆ ◆ ◆

Friends in College.

Mayor Monteith and Mr. Neathery were friends during college days at the University of Texas more than thirty years ago, and have been close friends during the ensuing years.

A native of Ball county, Mayor Monteith was graduated from the state university law school in 1901. Before coming to Houston, he engaged in the practice of law in Belton and Temple. For three years he was associated with the Kirby Lumber company as land commissioner.

In 1916 he was elected judge of County Court at Law No. 1 in Harris county, and three years later was appointed judge of the sixty-first judicial district by the then Gov. W. P. Hobby. He held the office without opposition until 1928 when he resigned to take the position of mayor to which he had just been elected.

◆ ◆ ◆

Declined Judgeship.

Just after he was inducted into office, Gov. Dan Moody offered him a judgeship on the commission of appeals to the Supreme court of Texas. Mayor Monteith declined the offer, saying he felt it his duty to serve in the office to which he had been elected by a large majority.

He was re-elected mayor two years later, and is ending his second term.

Mr. Neathery was born and reared in Collin county. In 1904 he graduated from the law school of the University of Texas. After three years as private secretary to Congressman C. B. Randell, Mr. Neathery resigned and returned to his home at McKinney, serving eight years in the prosecuting attorney's office, both as county and district attorney.

He formed a law partnership with L. J. Truett. It continued for ten years. During this interval he served as regent of the University of Texas during the Moody administration, and for eight years was Democratic county chairman.

Three years ago he moved with his family to Houston, and since that time has served as city attorney under Mayor Monteith.

James Cowan, son of Dr. and Mrs. R. L. Cowan, of this city, a senior in Austin college, at Sherman, spent Easter with his parents here.

Mrs. Jesse Bates of Altoga was a guest Saturday of her friends, Mrs. E. M. Rowe, and Mr. and Mrs. D. L. Baker, at 603 North Kentucky street, this city.

Miss Marion Caldwell, a senior at S. M. U., this year, spent the Easter holidays with her parents, Mr. and Mrs. Gibson Caldwell, in McKinney.

Miss Mary Leona Watson, who teaches in the Prosper public schools, spent the Easter holidays with her parents, Mr. and Mrs. Brack Watson, in this city.

Mrs. W. F. Cook remains in a very serious condition. She has been a patient in the City hospital for some time. Her husband is the manager of the Union Ener-

JOHN D. REESE IS APPOINTED CITY ATTORNEY

John D. Reese is the first appointee of the new city administration, of Mayor Joe E. Largent and Commissioners C. M. Bryan and Add G. Wilson. He was appointed to the position of city attorney immediately after the new administration was installed in office Wednesday. This is not the first experience that Mr. Reese has had in the city attorneyship as he served for two years in the same capacity under the administration of former Mayor M. T. Jones.

John D. Reese is a son of the late Mr. and Mrs. R. C. Reese, an estimable pioneer Josephine couple where he was born and reared and attended public school. He later attended Burleson college, at Greenville, and then took his law course in Cumberland university, Lebanon, Tenn., being admitted to the bar in 1915. In August of that year, he first hung out his shingle as a practitioner at Farwell, Parmer county, in the Texas Panahndle. He was later elected county attorney of that county, going directly from that position into the American Expeditionary Forces of the World war. He served for nearly a year in France, being a member of Company L, 142nd Infantry of the Thirty-Sixth division.

After the close of the World war, he returned to Texas and entered the practice of his profession here in McKinney in 1919. He was first in partnership with Owen P. Smith, son of Judge G. R. Smith, but after the latter moved away from McKinney, Mr. Reese has been alone in the practice of his profession. He has built up a splendid practice and is regarded as a most capable lawyer at the McKinney bar.

His wife was formerly Miss Bertha Garnett Wilcox, daughter of Mrs. George Wilcox. They are the parents of one child, a beautiful, bright little seven-year-old daughter, Garnett Reese.

The new city attorney resumes his old position as city attorney with the congratulations and best wishes of a host of friends throughout the city and county.

M'KINNEY MASONS PROMINENT IN DALLAS EVENT

Hon. Wallace Hughston, Grand Master of the Texas Masonic Grand Lodge, and Will J. Rhea, Eminent Grand Generalissimo of the Grand Commandery of Texas, were in Dallas Thursday night to attend the annual Maunday Thursday mystic banquet, staged annually by the Scottish Rite Masons on the Thursday night preceding Easter.

Grand Master Hughston was the principal speaker of the occasion, speaking on the significance of the banquet and its relation to Jewish and Protestant history. He was introduced by Hon. Sam P. Cochran, thirty-third degree Mason, Grand Instructor General of Texas. Mr. Hughston's address was highly interesting. He was attentively listened to by the large crowd of several hundred Masons present.

Mr. Rhea, who was seated on the speaker's stage with Mr. Hughston, holds the second highest honor in the Grand Commandery of Texas and will be advanced to the highest position in the Texas commandery next year.

Mrs. J. F. Webb and family of Little Rock, Ark., spent the weekend in McKinney, guests of Mrs. Webb's father, Hon. John Doyle.

Mr. and Mrs. David Allen of this city spent Sunday in Westminster, guests of her parents, Mr. and Mrs. W. P. Cleveland.

How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. *For this, you have the word of a famous doctor.* Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular; keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

DR. WOLFORD APPOINTED NEW CITY PHYSICIAN

DR. H. F. WOLFORD.

Mayor Joe E. Largent and City Commissioners C. M. Bryan and Add G. Wilson have appointed Dr. H. F. Wolford, city health officer of McKinney. Dr. Wolford is a native of the county, being a son of the late Dr. W. F. Wolford, a pioneer and beloved Collin county physician who practiced at Allen throughout his long career. Dr. Fitzhugh Wolford is one of the county's most beloved and successful general practitioners who has been located at McKinney for a number of years.

He is an extensive land holder and greatly interested in farming and improvement in farm conditions as well as in the practice of medicine. He has been helping to bring this improvement about by encouraging the use of better seed and better methods of cultivation.

Mr. and Mrs. W. H. Heller of Galveston were guests over the week-end of Mr. and Mrs. Wade Biggers in this city. Mrs. Heller will be remembered as Miss Allie Lee Crice before her marriage. She is a niece of Mrs. Biggers.

Mr. and Mrs. J. G. Simpson were present at the track and field meet in Commerce Saturday afternoon. Their son, Ray Simpson, was one of the McKinney High athletes, who won several points in this meet.

M'KINNEY PASTOR LION CLUB SPEAKER

An enjoyable meeting of the McKinney Lions' club was held in the Methodist church dining hall Wednesday, when Mrs. Felix Welmaker, assisted by Social Workers of the church, served a most delightful spring luncheon of fried chicken and assesories.

Lions Jack Warden and R. J. Walton were the program committee for the day providing some unusual entertainment in the way of a "balloon blowing" contest. The contestants were H. H. Standley, Bob Gordon, W. Clarence Dowdy and Shirley Taylor, Lion Standley winning the trophy, which was a set of ash trays, presented by Lion Orlia J. Moss, bearing advertisement of his place of business here.

Following the presentation, Lion Moss was immediately fined for advertising his place of business by Lion Tom Houston acting as tail-twister for the day in the absence of Lion W. W. Hall, who was absent from the city.

Following this mirth-provoking contest, Lion Warden presented Rev. E. B. Jackson, pastor of the Wilcox Street Methodist church and one of our city's most popular and capable ministers, who brought a splendid talk, using for his discussion the Lions' code of ethics. He received the compliments of the club for his entertaining and inspiring address.

Before the meeting adjourned, Lion President Spillman urged the members to bear in mind the convention to be held in Greenville, April 18 and 19, and to attend some of the sessions.

Fire caused loss estimated at from $40,000 to $50,000 Sunday in the H. M. Russell & Sons' department store in the heart of the business district at Denton Sunday. The owners valued the stock and fixtures at $125,000 and estimated the damage would total from one-third to one-half of that amount. The building also was damaged to the extent of several thousand dollars and officers on the second floor suffered considerable loss. The fire was believed to have started from an electric iron.
